NEBFARMPAC Endorses Dan Osborn for U.S. Senate

Lincoln, NE –Nebraska Farmers Union’s Political Action Committee, NEBFARMPAC announced its endorsement of independent candidate Dan Osborn for U.S. Senate in the 2026 general election.

John Hansen, NeFU President who serves as NEBFARMPAC Secretary said, “Our farm organization and PAC have always been independent and non-partisan. Our organization partnered with George Norris to create Nebraska’s unique non-partisan Unicameral system and non-partisan public power system. Political Party bosses should not run our state. We support Congress placing real limits on the size of individual campaign contributions and limiting corporations campaign contributions altogether. Our election system has been swamped by the corrupting influence of limitless campaign spending ever since the Supreme Court’s 2010 Citizens United v. FEC decision. Dan Osborn’s independent campaign is a breath of fresh air relative to campaign spending and support for campaign financing reforms.”

Vern Jantzen, NEBFARMPAC President from Plymouth said, “Dan Osborn listens to farmers, ranchers, and members of the rural community. He has his “ears” on. We encourage voters to participate in his 93-county tour. Bring your issues and concerns to Dan, and also hear what he has to say. We cannot complain that our public officials are out of touch and are not willing to listen to us, and then not appreciate and support candidates that do listen.”

NEBFARMPAC Secretary Hansen said “Our Board is painfully aware of the fact that agriculture is facing another year of losing money thanks to record high ag input costs and below the cost of production ag commodity prices. Agriculture is facing the worst financial crisis since the 1980’s. Business as usual these days is about farms and ranches losing money, equity, and their generations old farm and ranch operations. Our PAC endorsements this year will reflect our realization that it is up to us as voters to send a strong message this election that we must stop digging the economic hole we are currently in deeper. The status quo does not work for our farmers, ranchers, rural communities, and state as a whole. Our 2026 PAC endorsements will focus on the need for real changes in who we support for public office.”

NEBFARMPAC Jantzen concluded “When our state’s largest single industry is in crisis, so are the rural communities and state as a whole that depends on agriculture. As voters, we owe it to ourselves and our future to positively to vote like we understand we are in a crisis, and we need to support those candidates that represent changes in farm policy, trade policy, anti-trust and competition policies that no longer work. Our PAC Board believes Dan Osborn represents the hopes and dreams of the little guys and gals in our society that work for a living. He represents badly needed positive change. We encourage all voters to give Dan Osborn a listen, and then vote for their own pocketbook interests and change.”

NEBFARMPAC is the political action committee of the Nebraska Farmers Union, which is a non-partisan, not-for-profit general farm organization founded in 1913 with a mission to protect and enhance the quality of life and economic well-being of family farmers and ranchers and their rural communities. NeFU is the respected voice of family farm and ranch agriculture with nearly 4,000 family memberships.
